## Phone Service Option - February 1<sup>st</sup>, 2018

Fibersphere and the Amerige Heights HOA were recently informed by Greenfield Communications that they intend to stop delivering Voice services to Amerige Heights residents as of February 28th, 2018. Fibersphere understands that this puts our customers in a difficult position, with a short window of time to make arrangements to start new phone service and keep your home phone numbers.

Fibersphere has arranged a low-cost option to keep voice service active in your home.

- Full-feature Premier voice service, with calling anywhere in the US, for just \$9.99 per month with Ooma, the leading voice-over-internet provider in the industry.

- Ooma provides number porting services to ensure you have the opportunity to keep your existing phone numbers, as well as a host of calling features that should be a significant upgrade from your current plan.

- Fibersphere will provide the Ooma equipment and installation of the service at no cost to Amerige Heights residents.

- Technicians will be available to install the Ooma equipment.

Porting your number to a new service can take up to three weeks to complete. If you would like to take advantage of this offer, it is imperative that you contact Fibersphere at 714-923-0035 or via our contact form at [fibersphere.com](http://fibersphere.com) no later than Friday, February 7<sup>th</sup>.

**Please respond by Feb. 7<sup>th</sup> to take advantage of this opportunity!**
