

Dear Resident –

Here are a few important updates that we would like to make you aware of.

Proposed Rule Change

The Park Laurel Board of Directors has proposed a new rule to be adopted for the Association regarding water heaters. A draft letter of the new rule along with space to comment was mailed out this week. Please review the proposed rule and provide your feedback for the Board to consider before it makes a final decision on whether or not to approve the rule. A copy of the letter that you will be receiving has been attached for your convenience.

Monthly Generator Run

We will be performing the monthly exercise of the emergency generators in both towers on Monday, July 2nd, from 8:00am to 11:00am. You may wish to keep your windows and balcony doors closed to prevent the exhaust from entering your home. This will be especially concentrated on the lower floors and closest to the corner of Sixth Avenue and Laurel Street and the corner of Fifth Avenue and Maple Street. We appreciate your patience during this exercise.

Balcony Painting Update

The balcony painting project will continue next week with the 07 stack. We will begin at the penthouse level and work our way down the tower. We are notifying each resident in the 07 stack individually with specific dates and times.

Women's Book Club

The Park Laurel Women's Book Club resumes meeting this month on July 30th at 7:00pm in the Prado Room. This month's selection is The Curious Charms of Arthur Pepper by Phaedra Patrick. Please see the attached flier for more details.

On behalf of your Park Laurel team, have a wonderful weekend!
