

Dear Resident –

Here are a few updates that we would like to make you aware of.

Entrance Gate

The main entrance gate is inoperable due to a faulty capacitor. A new capacitor is supposed to be sent overnight to us for installation tomorrow, Saturday, but there is a chance that the gate will be down until Monday. Please continue to use the exit gate to both enter and exit the building.

Also, please continue to enter from the entrance driveway and then crossover to the exit gate. This helps to avoid head-on encounters at the exit driveway and gives those entering a place to wait while the exit ramp clears of traffic. We apologize for the inconvenience this has caused.

Window Washing

The second round of window washing will begin Monday, August 27th in the South Tower. We will begin with the 05 stack windows overlooking Sixth Avenue. Updates will be sent out daily so that you know when to expect the washers to be at your unit so that you can close your windows and keep the shades drawn closed for privacy.

Fire Stairwell Doors

If you have not already done so, please check the fire exit door in your master bedroom closet as part of our ongoing fire safety efforts. We want to make sure you can open this door as they tend to stick over time and it is important that you are able to access and open these doors in an emergency. Please let us know if you have any trouble with this door so that we can address the problem.

Storage Rental Available

There is a storage cage available for rent in the South Tower on P1 for \$175/month. Please let the Concierge know if you are interested in renting additional storage space.

On behalf of your Park Laurel team, have a wonderful weekend!
