Comments to Post:

Safe-T-Proof was extremely professional, easy to work with and surprisingly affordable! And they really know about earthquake safety! We have several unique items (including a tall two piece vase and a six piece glass artwork) in our home so I was extremely pleased when they consulted with me on each item and considered all options. I am very happy with my new kitchen cabinet fasteners. They also went over and above to make sure their work blended in and looked nice. I highly recommend them to any homeowner worried about the next big one!
